## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Robinson et al (5874157).

Robinson is concerned with the creation of a structure comprising two substrate layers laminated together by a plurality of evenly distributed bonding points (abstract, cols. 1-2, lines 54-17, and fig. 1). Robinson's structure is gripped when used.
